8 day of machine learning:

Application of machine learning:-

-> 1. Retails - Amazon/ Big bazar.

↳ हर साल एक सेल आता है।

-> every share grow

-> Before sail know which product is high demanded

-> By data warehousing, clean, data analysis.

-> Engineer first see this.

-> Banking And Finance:-

-> Apply for loan, but not granted to everyone.

-> First you want to submit your profile -> then analysis -> machine learning analysis -> local administration.

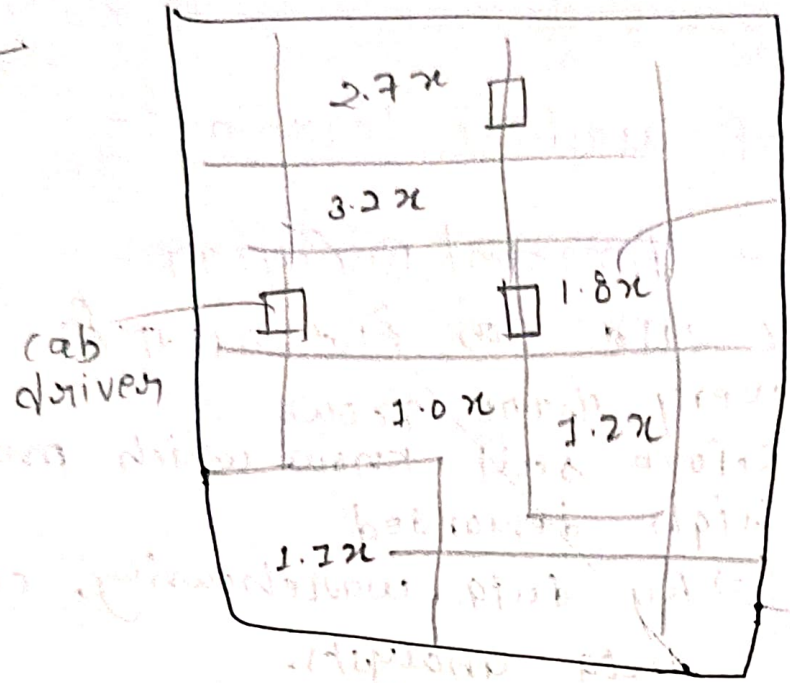
-> In M.L analysis -> match the criteria with past people who don't pay an loan. Based are checking your profile

-> Transportation:- OLA [like fair was not constant every time].

- Some time is high with normal price or may low

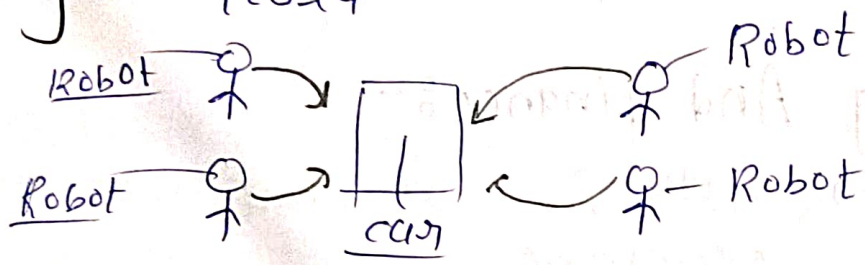
-> evening or overnight price comparison

Example



only show driver App

4. Manufacturing – Tesla



5. Consumer · Internet – twitter.

Trend

→ # westbengal election 2021 → All twited collected.

Total 70000 twit

↓ Ques – whose win

↓ 40,000 say – modi win } – thats data

most Real.

Because you write Read

This is an opinion poll → Sell this data to Stock Broker – Jemorgan
