Intance-Based Vs Model-Based Learning:-

06 day of 100

learning

Memorizing (रट लेना) — generalizing (समझ लेना)

Instanced-Based:-

data sheet

iq	capa	Placement
80	8	Y
70	7	N
103	7.5

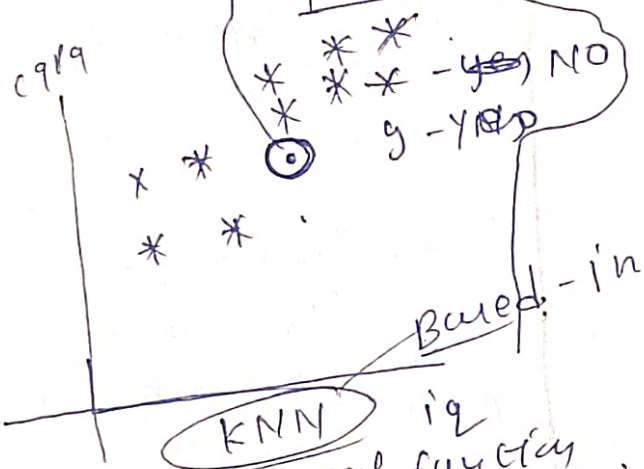
Belay
Predict



Based - instanced Based

KNN

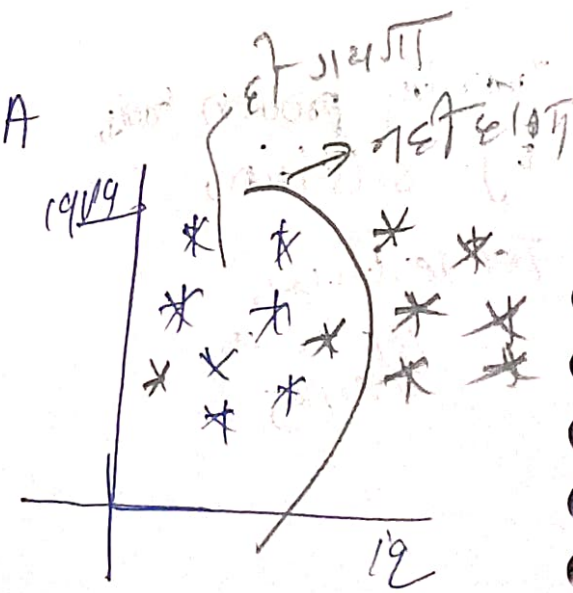
iq

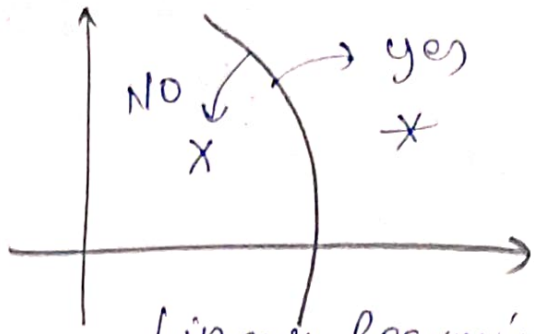
Kernal function

Model-Based

iq | capa | CGPA

mathematical Reln b/w input & output





Linear Regression
Disicon Tree

difference:-

usual / conventional machine learning.	Instanced - Based learning
1) Prepare the data for model training	1) prepare the data for model training No difference here.
2) Stored the ~~data~~ model in suitable form	3) Do not train model. pattern discovery pattern until seeing query Recivig
3) Train model from training data to estimated model parameter ie. discover pattern	There is no model to store
